Phone Apps (Android & iOS)

Customer Management & Smart Analytics

Realtime job reporting

*With McLEAN job management software you can create a quote, convert to a job, assign a specific cleaner to that job which they will then receive on the mobile app and then track the progress of the work being done.*

**Live Tracking & Communication**

Within a single system you can track your technicians, vehicles for more cost effective and efficient which improves customer satisfaction

**Easy Scheduling & mobile-friendly**

Organize your appointments and schedule by time, day, week, month or year with ease

**Dashboard**

Simple dashboards show job and schedule statistics to track important business activities.

The office staff can **view photos** that cleaners have uploaded of the completed work, **view any notes the user has made, view the customer signature** if one was required and then have the **invoice sent immediately after the job has been completed.**

### Photos & Customer Signature Capturing

The office staff can view photos the cleaners have uploaded of the completed work, view the customer signature if one was required.

### Mobile Apps - Location Capturing
